SKILLS

CORE ANDROID

Jetpack Compose
Android SDK
Kotlin | Kotlin Coroutines | Flow
Java | Rx Java

ARCHITECTURE

MVVM
Clean Architecture
Modularization
SOLID
DI | Koin | Hilt | Dagger

SECURITY

OAuth 2.0
Certificate Pinning
BioMetric Prompt
Encrypted Shared Preferences
Play Integrity API

TESTING & QUALITY

TDD
Unit Testing
Espresso UI / Kakao Testing
Mockito
WireMock

CI/CD & TOOLS

GithubActions
CircleCI
Git
Cursor
Claude

PROFILE

Senior Android Engineer having **10 years** of industry experience, Currently contributing to **e& UAE's | Etisalat Digital** App serving **10M+** users. Previously worked on **ImagineArt AI**, a large-scale generative AI platform for the creative industry that has processed over 2.5 billion images. Developed an enterprise Android app **DAO/BK** supporting approximately **4,000+** couriers responsible for **80%** of distribution operations in Denmark, deployed via **EMM**. Developed and delivered **30+** Android applications across **AI, fintech, e-wallets**, logistics, distribution, and on-demand services, building scalable and reliable consumer and enterprise solutions. More recently leveraging **AI-assisted** development to improve engineering productivity and code quality.
